

PAD Month | Collaborative Activities

SEPTEMBER TIMELINE

SVS Vascular Health Step Challenge

**VASCULAR HEALTH
STEP CHALLENGE**

JOIN THE MOVEMENT TO GET MOVING!

Did you know? Walking is critical for keeping the **60,000 miles** of blood vessels in our body healthy – especially for those with Peripheral Arterial Disease (PAD) and other vascular conditions.

This **SEPTEMBER**, during PAD Awareness Month, join the Society for Vascular Surgery Foundation and pledge to walk 60 miles to keep the **60,000 miles** of blood vessels in our body healthy!

Raise awareness and your step count while helping the SVS Foundation reach their **\$60,000 goal** that will support low-income patients in exercise therapy programs.

All walkers receive a **T-SHIRT!**
SPECIAL PRIZES for top walkers & fundraisers!

AAWC "Show your Toes" Challenge

As part of our activities to recognize September as Peripheral Artery Disease Awareness month we will have our second annual **#ShowYourToes** challenge. You can participate by tagging us in posts on your own social media accounts with the hashtag or send your submissions to info@aawconline.org. We want to raise awareness by showing injured and uninjured feet so send in your own, friends and family, colleagues and patients (with appropriate permissions) and we will share throughout September.

PAD Briefing & Foot Screening

Wednesday, September 27, 2023
9:00AM - 12:00PM | CVC 217

Peripheral artery disease (PAD) is the build-up of plaque inside the arteries of a patient's lower extremities (i.e. legs and feet) and is a chronic, life-threatening condition, which often results in amputations.

Panelists:

- David Alper, DPM
American Diabetes Assoc.
- Rich Browne, MD
Johnson & Johnson
- Alexander Faranoff, MD
Society for Cardiovascular Angiography & Interventions
- Osama A. Ibrahim, MD
American College of Cardiology

Moderator:

- Foluso Fakorede, MD
Association of Black Cardiologists, Inc.

Free foot screening post-briefing! Hosted by Biomedix.

Additional Collaborative Plans for September

- **American Association of Cardiovascular and Pulmonary Rehabilitation** - Annual Meeting is September 13-15. Will include a rolling slide in session rooms highlighting PAD Awareness Week and promoting the PAD Exercise Toolkit and a recent AACVPR webcast on incorporating a PAD program into an existing CR program. We'll have some social posts, too.
- **American Heart Association** – Sept. plans will focus on symptom recognition and undiagnosed, at-risk population through social media and a LIVE show featuring **Dr. Lee Kirksey & Sybil Wilkes on September 21st @ 6 pm CST**
- **American College of Cardiology** – audience: physicians and care teams; Sept. plans are still being developed, but typically share patient-focused materials; there are plans to share a PAD infographic.
- **Society of Interventional Radiology** – patient engagement will occur through Facebook; promoting patient resources and professional tools to their provider audience via Instagram, LinkedIn and Twitter.
- **Society of Vascular Surgery** - audience: physicians, patients, and care teams. Participate in the “**Vascular Health Step Challenge**” all September to encourage walking and support the SVS Foundation.
- **Association of Advancement of Wound Care** – audience: multi-disciplinary clinicians and patients at-risk for or with wounds. SVN/AAWC Webinar confirmed for 9/27. 2nd annual **#ShowYourToes** challenge. Participate by tagging us in posts on your own social media accounts with the hashtag or send your submissions to info@aawconline.org.
- **VIVA Foundation** – main audience is physicians; social media will likely be avenue for Sept comms.
- **Society of Vascular Nursing** – co-hosting webinar with AAWC on **Wednesday Sept 27 at 7pm EST Title: Sociopolitical Determinants of Peripheral Artery Disease Care: Toward Health Equity Speaker: Dr. Olamide Alabi (Emory University)**
- **Vascular Cures** – audience: patients and professionals. Plan to share PAD patient story on social channels each day, and still developing how to implement that to their professional audience on LinkedIn and Twitter.
- **The Society for Cardiovascular Angiography and Interventions (SCAI)** - will be sharing patient education resources and physician tools with members and external network. They also have several advocacy efforts lined up as well which are TBD.
