

ROOM LOCATOR/SCHEDULE AT A GLANCE
Welcome to EPI/Lifestyle 2022

The primary goal of the EPI|Lifestyle Scientific Sessions is to promote population science related to promotion of cardiovascular health and prevention of heart disease and stroke. This year's theme is "Green World, Heart-Healthy Living," focusing on emerging cardiovascular science concerning food sustainability and environmental health.

The American Heart Association is grateful for the continued support of Amarin Pharma, Inc. Please take time to visit their exhibit during the EPI Lifestyle Conference.
