

Subject line: Join me at Hypertension 2021, September 27-29

Dear Colleagues,

The American Heart Association's annual meeting, Hypertension 2021 is happening this September 27-29. This year, they are offering a 3-day virtual experience that will bring you even more opportunities to connect and engage, grow your career, and discover new and innovative topics in clinical hypertension and hypertension research.

By registering for #HTN21 you will get instant access to 3 days of presentations and engaging events. Attendees can expect that the program will be dedicated to important and innovative clinical topics in hypertension as well as research performed by our members and attendees.

Can't miss sessions at this year's meeting include:

- Opening Session featuring 2019 Nobel Prize winner, Gregg L. Semenza, MD, PhD
- Award Lectures with Integrated Abstract Presentations
- Live Hypertension Journal Case Study
- Live Moderated Poster Sessions
- Symposia on Hot Topics

To learn more and register, visit their website at <https://professional.heart.org/hypertensionsessions>

Thank you for your consideration and I look forward to connecting with you this September.

Sincerely,

[AHA/Hypertension Ambassador Name]
