

# Basic Cardiovascular Sciences

## ePoster Presenter Guidelines

### *General Information*

ePosters are for mobile and online viewing only and can be viewed from phones, laptops, tablets or computer monitors. All posters will be in electronic format. You will receive an email from Digital Acumen with instructions on how to upload your electronic poster.

All presenters are required to upload an electronic version of their poster to the ePoster site. We strongly suggest adding a pre-recorded audio discussion from the presenting author to accompany the ePoster. The email will come from [upload@scientificposters.com](mailto:upload@scientificposters.com). Please check your Spam/Junk filter if you do not see the emails in your Inbox from [upload@scientificposters.com](mailto:upload@scientificposters.com).

The deadline to upload your ePoster is July 17, 2020.

**REMINDER!** Please include all authors' disclosure information in your poster. Please ensure that it is visible to attendees viewing the poster.

### *Poster Presenter Available Time*

Given that the conference is now a virtual event, you are not required to be available during a specific date/time. Attendees can access your ePoster via the ePoster site to view your poster, listen to your pre-recorded presentation, and message presenters with any questions through the ePoster messaging system

### *Publication*

- All presented abstracts (poster and oral presentations) with a completed Abstract Copyright Transfer Agreement completed at time of submission, will be published in the online edition of the *Circulation Research journal* exactly as submitted.
- Requests for withdrawal of an abstract must be received in writing by July 13, 2020 to avoid publication.

### *Poster Preparation*

Your ePoster should contain succinct headings that organize and logically display the information. Graphics should be explicit and brief. Elaboration is best done verbally just as if it were an oral presentation using slides. A short and legible "Introduction" and a "Summary of Conclusions" are essential.

The poster display should focus on:

- Hypothesis or Objective
- Methods
- Results or Outcomes

All illustrations (figures, tables, diagrams, equations, etc.) should be final before arriving submitting your ePoster. Keep text and figure legends explicit and brief. Illustrations must be read from distances of approximately 4 ft (1.2 m) to 6 ft (1.8 m). Charts, drawings and illustrations should be similar to those you would use in making slides.

Your ePoster file:

1. Recommended to be in either PowerPoint or PDF.
2. Either a single page poster (like your print poster file) OR a multi slide presentation.
3. 16:9 is the preferred aspect ratio.
4. On the Support page you will find an ePoster template for download (optional).
5. After you upload your file you will review both a PDF version and a Flash version.
6. You must approve your file (click on the green Approve button) to complete your submission and make it available online for the meeting.
7. It must be uploaded at this site prior to the meeting.
8. Do not use animation or embed hyperlinks/videos in your PowerPoint file as these are not extracted to the PDF and Flash versions.
9. Audio and video are uploaded as separate files. There is also an online recording tool in the ePoster submission site to record narration (5-minute maximum) and advance your slides.

There can only be one approved ePoster file which will be the one used in the BCVS 2020 program.

If you would like to add an audio file or use the online recording tool to provide narration and slide advancement, you may do so after you have approved the ePoster. You may also upload video to play within your approved presentation. Please visit the Support page – Frequently Asked Questions for detailed instructions to add audio or video to your presentation. The addition of audio or video is encouraged, not required.

The secured ePoster submissions site opens for presenters mid-June 2020 at <https://submit.scientificposters.com/bcvs>.

Further information will be emailed to the presenter in June from APPRISOR via [upload@scientificposters.com](mailto:upload@scientificposters.com). Please check your Spam/Junk folder if you do not see the emails in your Inbox and add this email address to your Contacts to ensure receipt.

View 2020 ePosters at <https://bcvs.apprisor.org>. Approved ePosters will be available when the AHA embargo is lifted.

View prior year ePosters in the AHA archive, <https://aha.scientificposters.com>.
