2:00 to 3:00 PM CDT	<p>Early Career Training Session 2: Workshop on Negotiations and Advocating for Yourself <i>Whether you are a trainee or a supervisor, conversations that involve negotiations or advocating for yourself are some of the most stressful situations you will encounter. In this workshop we will cover tips to having these types of conversations. Scenarios will be presented, and the group will practice and discuss outcomes to different role-playing examples such as: a postdoc asking their supervisor for 20% time to work on a side project, authorship issues, and a new PI meeting with their chair to ask for more space, or an academic scientist setting up an industry collaboration.</i></p>
