# Submit Your Session Ideas for Scientific Sessions 2027

## Deadline: January 4, 2027, 6:00 PM CT

We invite you to submit your ideas for session topics for the Scientific Sessions' 100th Year!

**Why share your proposal?**

Have your proposal considered for the **100th Scientific Sessions** taking place in Boston. Scientific Sessions is more than a meeting—it's a global community of pioneers and changemakers. Your voice can help shape the conversation and accelerate progress in cardiovascular health worldwide.

**What makes a great submission?**

- **Global Relevance** – Address topics, challenges, or innovations that resonate across diverse geographic, cultural, and healthcare contexts.
- **Scientific Generalizability** – Present insights or findings that apply broadly across regions, disciplines, or populations.
- **Educational Impact** – Advance the scientific mission with evidence-based content and clear educational value.

**A few things to know:**

- All proposals are thoughtfully reviewed; final selections are made by the Committee on Scientific Sessions Program
- Proposals may be revised or merged to ensure representation in topics and faculty.
- While individual notifications aren't possible, your contribution is deeply valued and helps shape the future of Scientific Sessions.
- **Submit your ideas for 2027** (*Proposals must be submitted online*)

**Deadline: January 4, 2027, 6:00 PM CT**
For the latest updates, visit scientificsessions.org.
Have a question? We're here to help—just reach out.

**Scroll down for additional information needed to submit your proposal!**

**Information Needed for your Session Proposal:** **indicates a required field*

- *Session Title
- *Session Description
- *Primary & Secondary Community
    - AI and Bioinformatics
    - Arrhythmia
    - Brain Health and Cerebrovascular Science
    - Cardiac Development, Structure and Function
    - Cardiovascular Kidney Metabolic Health
    - Congenital and Pediatric Cardiovascular Disease
    - Coronary and Structural Heart Disease
    - Critical Care
    - Epidemiology and Big Data
    - Genetics and Genomics
    - Heart Failure and Cardiomyopathy
    - Hypertension and Nephrology
    - Imaging
    - Molecular and Cellular Science
    - Nursing and Allied Healthcare
    - Prevention and Lifestyle
    - Pulmonary Hypertension
    - Quality and Outcomes Research
    - Surgery and Anesthesia
    - Vascular Biology
    - Vascular Medicine
- *Session Format
    - Bootcamp: Hands-on session that provides both learning and application opportunities for audience members.
    - Didactic Lecture: Traditional style presentation with discussion at the end.
    - Debate: Opposing positions on a topic are presented and then discussed.
    - Flipped Classroom: Education strategy that focuses on engagement of learners through interactive learning instead of a lecture style. Learning happens in the individual space and discussion/application and takes place with the group during the sessions.
    - Rapid Fire: Short presentations to cover a single subject, viewpoint or data set to encourage many different ideas or topics in a single session.

    - Special Sessions: Presentations designed to spark ideas, challenge assumptions, and accelerate scientific progress with a key take-away from each presentation.
- *Guidelines: Will this session review or discuss guidelines?
- Submitting American Heart Association Council - *If applicable, please indicate the American Heart Association Submitting Council. Note: Please only select this option if you are submitting on behalf of your Council Committee.*
- *Notes to Planning Committee
- *Moderators – 2 required primary and 2 alternate moderators.
- *Speakers – 3 primary speakers and 3 alternate speakers are required for submission. Space to include up to 5 talks. Please include alternates.
    - Presentation title, speaker name, speaker institution and speaker email required.
- Panelists: Panelists are optional. Panelists will participate in a discussion around the topic. These individuals do not have a slide deck or formal presentation.

**If you have an idea for a session with no suggested speakers or moderators, please email programparticipant@heart.org with the subject line "Scientific Sessions 2027 Proposal Theme Idea"**
