

## 2019 Abstract Categories

### 2020 Goals

Advances in Health Technology

Aging in Older Adults

Arrhythmia | Sudden Death

Biomarkers

Cardiometabolic Risk Prediction

Childhood and Youth Cardiometabolic Health and Disorders

Chronic Kidney Disease

Clinical Trials and Intervention Studies

Diabetes

Dietary Intake

Environmental Exposures

Genetics

Global Health

Health Disparities

Health Services Research | Outcomes | Practice Improvement

Heart Failure

HIV and Other Infections

Hypertension

LGBTQ Health

Lipids & Lipoproteins

Metabolomics | Proteomics

Methodology

Myocardial Infarction

Nutrition

Nutrition Epidemiology

Obesity and Adipose Tissue Distribution

Other

Peripheral Artery Disease and Venous Thrombosis

Pharmacoepidemiology

Physical Activity | Fitness

Physical Functioning | Quality of Life

Policy

Pregnancy and Maternal | Fetal Health

Preventive Cardiology

Promoting and Measuring Health Behaviors

Psychosocial Factors

Risk Prediction

Sedentary Behavior

Sleep

Smoking | Tobacco Use

Social Determinants

Stroke

Subclinical Cardiovascular Disease

Surveillance

Workplace Health
