The program is designed to present new and prevention-oriented clinical trials.

- cardiovascular disease, healthy populations, global health, health factors, obesity, nutrition, physical activity, genetics, Functional Genomics and Translational Biology, a jointly planned session with the Council on Epidemiology and Prevention and the Council on Lifestyle and Cardiometabolic Health.

- the meeting should appeal to physicians, nurses, school health professionals and other health scientists.

Program Description

The primary goal of EPI/Lifestyle 2016 Scientific Sessions is to provide the latest advances and application of translational and population science to prevent heart disease and stroke and foster cardiovascular health. This year the theme will be "From Precision Medicine to a Global Cardiovascular Health Agenda." Sessions will offer topics on community health programs and initiatives, a jointly planned session with the Council on Functional Genes and Translational Biology, with global health and Hispanic perspectives.

The Council on Epidemiology and Prevention and Lifestyle and Cardiometabolic Health (EPI/Lifestyle) jointly planned the EPI/Lifestyle 2016 Scientific Sessions. The sessions focus on the factors, causes, risk factors, physical activity, genetics, and their interactions with cardiovascular disease, healthy populations, global health and prevention-oriented clinical trials.

The program is designed to present new findings on:

- cardiovascular disease prevention trials
- causes and mechanisms of health factors, subclinical, and clinical cardiovascular disease.

Key Dates

- Abstract Submission opens: July 5, 2015
- Award Application Deadline: Dec. 14, 2015
- Registration Opens: Oct. 21, 2015

General Information

- Become a member and save in time for early registration: Dec. 30, 2015
- Early Registration deadline: Jan. 13, 2016
- Become a member and save in time for advance registration: Jan. 27, 2016
- Advance Registration deadline: Feb. 10, 2016
- EPI/Lifestyle Scientific Sessions: March 1-4, 2016

- Become an AHA/ASA Professional member and save up to $300 off registration. Join the AHA/ASA and receive a special rate!
- Join AHA/ASA and save in time for early registration: Dec. 30, 2015
- Become a member and save up to $300 off registration. Join AHA/ASA and receive a special rate!
- Join AHA/ASA and save in time for early registration: Dec. 30, 2015

Abstracts are welcome for the conference, which will be held from November 14 to 16, 2016. To submit your abstract, please visit the conference website at www.americanheart.org/abstractsession and follow the link to submit an abstract. The deadline for submission is March 1, 2016. Abstracts will be grouped and tabled subject to availability. Please note that if you will be submitting a completed version on US$ 11.50 for each abstract you submit.

2016 Abstract Categories are listed below.

• Obesity and Adipose Tissue Distribution
• Other
• Peripheral Artery Diseases and Venous Thrombosis
• Pharmacological Clinical Trials
• Physical Activity/fitness
• Pregnancy and Maternal/Infant Health
• Preventive Cardiology including Preventive Medicine, Public Health, Preventive Cardiology in Women, Hypertension, Heart Failure, Perinatal and P01215.

Program Committee Leadership

Vascular Health
• Hypertension
• Infection
• Lipids & Lipoproteins
• Miscellaneous Prevalence and CVD Methodology

Nourishment

Conference Awards

The American Heart Association scientific council award significant achievements in cardiovascular disease and stroke, and related research. At least one submission will be selected for oral, and one for poster presentation on March 1, 2016. This abstract will be submitted by the individual with the highest score. The deadline for submission is November 14, 2016. To submit your abstract, please visit the conference website at www.americanheart.org/abstractsession and follow the link to submit an abstract. The deadline for submission is March 1, 2016. Abstracts will be grouped and tabled subject to availability.
